Grade 2 - Math Fun!

Remote Instruction Day Math Café Menu

Please choose **one snack** item and **one lunch** item from this menu to complete your math assignment. **Dessert** is extra credit.

Hours:
Monday—Friday : 9:00am—3:30pm
Saturday & Sunday: Closed

Snack

Fact Families

Write the set of two addition and two subtraction sentences for each fact family.

(3, 6, 9) : (19, 10, 9) : (25, 6, 31)

Count On

Count by tens first start at 0 and count by tens to 100. Then count by tens starting with the following numbers counting up 5 numbers. Write down the numbers you say. Start at 3, 27, 34, 55, 100

Magic Ten Pairs

Write all the addition number sentence pairs that equal 10.

Make a Dollar

Write as many different coin combinations to make \$1.00. Use Q, D, & N

Clock Face

Draw a picture of a clock face. Label the minutes of the clock around on the 5's.

Sort It!

Choose items to sort at home (socks, stamps, books, etc.). Then sketch a picture of how you sorted them. Write a title that tells "Sorted By..." and label each group. REPEAT and sort a different way.

Lunch

Dice Math

Roll a pair of dice from a game. (Challenge, try three dice.) Add the two numbers together. Play alone or play with someone at home and see who can roll the largest sum! Keep track of your rolls by writing a number sentence for each roll.

Money Drop*

Take a handful of coins. Drop them a few inches above the circle on the Money Drop paper provided in your bag. Count the value of the coins that land in circle. Repeat 10 times. Record your values and list all coins in the circle like this
 $Q+Q+D+N+P+P= 67¢$

Shape Walk

Walk around your house and make a list of the 2D and 3D shapes that you see and what they are. Try to find at least four 2D shapes and four 3D shapes.

Examples: Door- rectangle
Baseball- sphere

Addition Number Story*

Locate some small items around your house that you could use to create a number story. ie: dolls, matchbox cars. Draw a picture and write a number story about those items. Use the paper included in

Lunch Continued

How Many?

Answer the following question: If there are 50 ears, how many people are there? Now make up your own questions using things that come in pairs - arms, feet, hands ... using things that come in 10s - fingers, toes ... and using things that come in 4s - chair legs, table legs...Write your questions on the paper in your bag.

Measurement

This Math Menu is ABOUT a foot (12 inches) long. Use it to estimate the size of 6 large objects in your house. Record your findings.

More and Less

Find a food item close to 16 ounces (one pound). Next, find 5 household items that are more than a pound and 5 that feel less than a pound.
